Prices quoted on Beans, Corn, Onion Sets, and Peas include postage or express charges prepaid on quantities up to 15 pounds. Quarter bushels or more of seeds mentioned are quoted f.o.b. Sewell, N. J. Quarter bushels or more sold at bushel rates. On all other seeds, postage, express, or freight charges are prepaid by us to your address.

[illegible]

While we exercise the greatest care to have all seeds, plants and bulbs pure and reliable, we give no warranty, expressed or implied, as to description, purity, productiveness, variety or any other matter of any seeds, plants or bulbs that we send out; and we will not in any way be responsible for the crop. Therefore, in no case will Orol Ledden & Sons be liable for more than the amount actually paid us for seeds, plants or bulbs. If the purchaser does not accept the goods on these terms, they are to be returned at once and the money paid will be refunded.

[illegible]

TO OUR CUSTOMERS

WE LIST 200 of the leading and best varieties of seeds and take greatest care to secure only the best strains. Our seed is grown especially for us by the most reliable growers in various parts of the United States, so that it may be produced in the section that is best suited for the variety. For example, our Lima Bean seed is grown in California, Beans in Idaho, Cantaloupe in Colorado, Corn in Connecticut, Spinach and Turnip in the State of Washington, Peas in Wyoming, Onion Sets in Illinois, etc. Contracts are placed twelve to eighteen months before the seed is to be delivered or before the grower plants the seed stock. This is done to secure only fresh and highest-quality seeds for our customers.

We have added a self-service seed department. All of the leading varieties of seeds will be packed in packets, ounces, $\frac{1}{4}$ pounds, $\frac{1}{2}$ pounds, pounds and 5 pounds. This self-service department will be in addition to our counter service. This will enable us to give faster and better service.

Fifty-one years' experience as seedsmen and commercial growers has taught us that only the best strains are worth while. We endeavor at all times to secure the highest-quality seeds obtainable and to offer them at minimum prices. All seed is carefully tested and none is allowed to be sold that we know to be poor in germination or in any way inferior.

Our store is located opposite the Penna.-Reading Railroad Station at Sewell, N. J., twelve miles south of Camden. G. R. Wood bus service from Philadelphia, Camden to Sewell. We welcome customers and friends to our store and shall be glad to show our seeds and plants.

TERMS

Seeds and Supplies: Cash with order, otherwise shipment will be made C. O. D. **Plants:** Cash with order, no C. O. D. orders accepted. Remittance can be made by Check, Postal Money Order, Express Money Order or Registered Letter. You are protected by our safe delivery guarantee.

The fact being well known that no reputable seedsman now guarantees seeds in any respect renders it unnecessary for us to say very much on this point, because it must be apparent to every intelligent person that no seedsman can afford to send out poor or worthless seeds. There could be no more certain way of destroying his business.

While we exercise the greatest care to have all seeds, plants and bulbs pure and reliable, we give no warranty express or implied, as to description, purity, productiveness, variety, or any other matter of any seeds, plants, or bulbs that we send out; and we will not in any way be responsible for the crop. Therefore in no case will Orol Ledden & Sons be liable for more than the amount actually paid us for seeds, plants or bulbs. If the purchaser does not accept the goods on these terms, they are to be returned at once and the money paid will be refunded.

All prices quoted in this Catalog are subject to change without notice.

OROL LEDDEN & SONS

SAFE DELIVERY GUARANTEED All seeds and plants are guaranteed to arrive in first-class condition, and if they do not, mail carrier or expressman should be notified on delivery. If damaged, request him to make notation of damage, sign and mail to us at once, and more seeds or plants will be forwarded or money refunded.

STORE HOURS:

Ledden's • HIGHEST-QUALITY VEGETABLE SEEDS

Self-Service Seed Department

In addition to counter service we will have all of the leading varieties of Vegetable Seeds available at self service. The seed will be packed in packets, ounces, $\frac{1}{4}$ lb., $\frac{1}{2}$ lb., lb., and 5 lbs. This will enable us to give faster service.

Asparagus *Sow in March and April*

Mary Washington. The best variety of Asparagus. It is a selected strain, earlier and more vigorous than other varieties, producing fat, delicious stalks abundantly and regularly. This is the famous rustproof variety produced after many years' effort, and is completely free from rust and other fungous diseases which harass the life of many Asparagus growers. Quality is of the highest. Oz. 20 cts.; $\frac{1}{4}$ lb. 55 cts.; lb. \$1.75; 5 lbs. @ \$1.65 per lb.

Beans, Green-Pod

Plant April 15 to August 15

Bountiful. Extra early. Large, flat pods, entirely stringless. Enormous yielder. The most popular market variety. Highly recommended. Requires 47 days from sowing to date of maturity. \$0 50 \$0 45 \$0 38 \$15 90

Contender. A variety developed by the U. S. Department of Agriculture to resist common Bean mosaic. Vines 14 to 16 inches in height. Pods $7\frac{1}{2}$ inches in length, oval-thick, attractive green. Suitable for home-garden, market-garden or shipping. 48 days to maturity. \$0 50 \$0 45 \$0 38 \$16 20

Dwarf Horticulture. Beans and pod splashed with carmine. Large and heavy yielder. Used as a Snap Bean when young, or shelled. Requires 55 days from sowing to date of maturity.. . . . 50 45 38 19 80

Giant Stringless. Long, round pod, entirely stringless. Requires 53 days from sowing to date of maturity. 50 45 38 15 90

Plentiful. Flat, medium-green pods, 6 to 7 inches long. A very good yielder of perfectly stringless Beans. Black-seeded. Requires 51 days from sowing to date of maturity. 50 45 38 16 80

Topcrop. Large plants resistant to mosaic disease. Of the Tendergreen type; pods round and long, stringless, meaty. 53 days to maturity. 50 45 38 18 00

Stringless Black Valentine. Very early. Pods are long, smooth, straight, and round. A recent introduction, completely stringless, and a big improvement over the old type. Requires 50 days from sowing to date of maturity. 50 45 38 15 60

ALL PRICES SUBJECT TO MARKET CHANGES

GREEN-POD BEANS, continued

Stringless Green Pod. Round-podded, stringless variety. Good yielder. Requires 50 days from sowing to date of maturity.....	\$0 50	5 lbs. per lb. \$0 45	10 lbs. per lb. \$0 38	Bus of 60 lbs. \$14 40
Tendergreen. Long, green, straight pods and perfectly round. Requires 52 days from sowing to date of maturity....	50	45	38	16 50
Wade. Round-podded, heavy-yielding variety. Bears a crop over a longer period of time. Pods are long, dark green; resistant to mosaic and mildew. 60 days to maturity.....	55	50	45	18 90

Wax-Pod Beans Plant April 15 to August 15

Cherokee Wax. Smooth, straight, clear light yellow pods, 5 to 6 inches long. A good cropper with clean oval pods of fine quality. Good for market or home-garden. Requires 50 days to mature...	50	45	38	15 60
Golden Wax. Flat, broad pod, entirely stringless. Requires 50 days to mature.	50	45	38	18 60

Shell Beans Plant April 15 to August 1

Blackeye Pea. Popular in the South as a Shell Bean. Seed grayish white with black eye.	Lb.	5 lbs. per lb.	10 lbs. per lb.	Bus. of 60 lbs.
	\$0 45	\$0 40	\$0 35	\$13 20
Large White Marrowfat. Standard dry Shell Bean for winter use in baking or soups.	50	45	38	15 60
Red Kidney. Used for baking. Seed large, red, kidney-shaped.	50	45	38	16 20
White Navy. The variety for use as baked Beans. A heavy producer, out-yielding the other shell varieties.	45	40	35	15 60

Beets Sow from March 20 to July 20

	Oz.	½lb.	Lb.	5 lbs. per lb.
Crosby's Egyptian. A standard early variety very popular with market gardeners as the tops bunch well and the dark red, flat-globe or turnip-shaped roots make a good appearance. Small tap-root. Top large and tall. Flesh purplish red. Matures in 60 days.	\$0 25	\$0 60	\$1 35	\$1 30
Detroit Dark Red. A standard variety for truckers, produce shippers, and canners. Tops medium, dark green tinged with red. Roots globular, smooth, uniform, attractive, with small tap-root. Color deep ox-blood-red. Flesh dark red with indistinct lighter red zones; fine quality, sweet and tender. Matures in 68 days.	25	60	1 35	1 30
Early Wonder. Dark Strain. The result of many years of breeding; unsurpassed in earliness, uniformity, and in depth of interior color. Distinctive green tops, erect, uniform in size and color, bunching very attractively for market. Roots round when young, semi-globular later, deep red, smooth, with small neck and tap-root. Flesh deep dark red, tender, and of excellent quality. Matures in 57 days.	25	60	1 35	1 30
Mangel Wurzel, Mammoth Long Red. Roots extremely large, long, slightly tapering, grow half above ground. Color light red; flesh white with rose tinge. Used extensively for cattle feeding. Matures in 110 days.	20	45	1 15	1 10

Broccoli Sow from April to July 1

	Pkg.	Oz.	½lb.	Lb.
Green Sprouting Calabrese. Early Strain. The tall, branching plants form a compact head of bluish green flower-buds resembling a head of cauliflower. After the main head has been removed, side shoots with small heads continue to develop. A delicious vegetable, steadily gaining in favor. 60 days to maturity.	\$0 10	\$0 50	\$1 50	\$5 00
Raab or Turnip Broccoli. Grown for tops and tender flower shoots used as greens. Plant 18 to 22 inches tall; strap leaved, medium grown.	05	20	60	1 70
Waltham 29. A rather short, stocky plant of uniform growth, with dark blue-green heads. After the main head is cut, the side shoots will produce tight heads for freezing and market. Recommended only for fall planting; transplant in July and early August.	10	60	1 75	6 00

We prepay transportation charges on all of our seeds except quarter bushels or more of Beans, Corn, Onion Sets, and Peas at bushel rates. For prepayment of these, please add 5 cents per pound to the price.

The varieties listed in this Catalog have proved to be the ones which yield the best results both to the commercial grower and the gardener. The seed we offer has been grown by reliable seed-growers in various parts of the United States. This means each variety is grown in the section which is best suited for its production.

Brussels Sprouts Sow April and May

	Pkg.	Oz.	½lb.	Lb.
Half-Dwarf Improved. Plants 22 to 26 inches tall; stems thickly set with firm, cabbage-like balls 1½ inches in diameter, maturing successively.	\$0 10	\$0 90	\$2 50	\$9 00

Cabbage

Sow early varieties in coldframe in January and February; in open, in March and April. Sow late varieties April 15 to June 1.

"Yellows-Resistant" following the name of the variety of Cabbage means that variety has been developed for resistance to the cabbage-yellows disease. Our Yellows-Resistant seed has been grown by the leading and original growers specializing in Yellows-Resistant strains. Yellows-Resistant does not guarantee, nor do we guarantee 100% immunity from yellows. However, we believe we are offering the best seed obtainable.

	Oz.	½lb.	Lb.
Allhead Select (Yellows-Resistant). A good winter keeper, particularly valuable for kraut. Heads flat but deep, 9 to 10 inches broad, 6 to 7 inches deep. Firm and of fine quality. Weight 6 pounds. Maturity 80 days.	\$0 40	\$1 25	\$3 75
Bonanza. A hard-heading, midsummer variety for market and shipping. Round, very firm, uniform heads that hold well in the field without splitting. Maturity 75 days.	90	3 00	9 00
Bugner (Yellows-Resistant). Large, semi-round heads, compact and hard, 7 to 8 inches in diameter. A late variety. Maturity 105 days.	40	1 30	4 00
Copenhagen Market Wisconsin (Yellows-Resistant). Heads uniformly round, firm, 6 to 7 inches in diameter; weight 3½ to 4 pounds. A good early variety. Plant small and compact, allowing close planting. Maturity 64 days.	45	1 35	4 50
Early Jersey Wakefield. An early variety. Heads conical, usually 7 inches long and 5 inches thick at base; weight about 2½ pounds. Maturity 62 days.	40	1 25	3 75
Early Red Resistant (Yellows-Resistant). A new yellows-resistant variety developed from Early Red Acre. Small, compact plants with short stems. Round, very hard, red heads weighing 3 to 3½ pounds. Maturity 80 days. Pkg. 10 cts.	70	2 00	7 00
Globe (Yellows-Resistant Glory of Enkhuizen). A good late kraut Cabbage. Heads large, globular, 8 to 9 inches in diameter; weight 6 pounds. Maturity 80 days.	40	1 25	3 75
Golden Acre (Yellows-Resistant). The earliest round-head variety. Plants small and compact; stem short. Heads firm, round, about 6 inches in diameter; weight about 3 pounds. Maturity 64 days.	45	1 35	4 50
Late Flat Dutch. Large late Cabbage. Heads large, flat but deep, about 12 inches across; weight 12 pounds. Maturity 105 days.	40	1 25	3 75
Marion Market (Yellows-Resistant Copenhagen Market). Round head, crisp and tender, 6 to 7 inches in diameter and weighing 3½ to 4 pounds. Plant is compact, allowing close planting. Widely used for market and kraut. Maturity 75 days.	40	1 30	4 00
Michihli. Chinese Cabbage. Head becomes 18 to 20 inches tall, 4 inches thick, tapered near tip. Sow July 15 to August 15. Do not use as an early or spring crop, because it will go to seed. Maturity 70 days. Pkg. 10 cts.	25	75	2 25
Penn State Ballhead. Heads flattened globe shape, 7 to 8 inches in diameter and 6 to 7 inches deep, weighing 5 to 6 pounds. Very hard, creamy white interior, fine grained and with small to medium core. Very uniform. Maturity 105 days.	45	1 35	4 50
Red Hollander (Yellows-Resistant). Red color; round hard head, 7 inches in diameter; weight 7 pounds. Maturity 100 days.	70	2 00	7 00
Savoy, Chieftain. Leaves broad, rounded, closely savoyed; heads medium large drumhead type, thick, flat, rounded on top, with cap leaves well overlapped; weight 6 pounds. Maturity 88 days.	40	1 30	4 00

CABBAGE, continued

Wisconsin All Season (Yellows-Resistant).

Late variety, valuable for kraut and a good winter keeper. Heads large, 10 to 12 inches across and 8 inches deep; weight 8 to 9 pounds. Maturity 92 days.

Oz.	1/4lb.	Lb.
\$0 40	\$1 30	\$4 25

Wisconsin Ballhead (Yellows-Resistant).

Head very hard, smaller than Wisconsin Hollander, more uniform and smoother. Short stem; blue-green leaves. Diameter of head 7 inches; weight 7 pounds. Maturity 100 days.

50	1 45	4 85
----	------	------

Wisconsin Hollander No. 8 (Yellows-Resistant

Danish Ballhead strain). Splendid late Cabbage for storage, shipment, and kraut. Plants large and hardy. Heads large, globe shape, very firm; weight 8 pounds. Excellent quality. Maturity 103 days.

40	1 30	4 25
----	------	------

Carrots Sow from March 25 to July 15

Danvers Half-Long. Extra-good for basketing or barreling. Grown mainly for fall or winter use. Matures in 65 days.

30	80	2 50
----	----	------

Gold Spike. A new variety with long, smooth, slender roots of good color. Its slim cylinder shape makes it ideal for bunching; short tops. Matures in 70 days.

30	90	3 00
----	----	------

Half-Long Nantes. Well-shaped, uniform, bright orange roots 6 to 7 inches long and 1 1/4 inches thick; flesh reddish orange. Matures in 70 days.

30	85	2 75
----	----	------

Imperator. Smooth; deep orange; fine-grained; longer and tapering more to a point than Chantenay and Danvers. Matures in 68 days.

30	90	2 85
----	----	------

Improved Chantenay Half-Long. Red cored. A well-known and popular all-purpose variety; desirable for home and market-gardens; a good cropper. Used either for bunching or basketing. Roots deep orange, smooth, tapered, stump-rooted; flesh deep orange with red core. Matures in 70 days.

30	80	2 50
----	----	------

Long Orange. Very large; uniform; beautiful color. Gives tremendous yield. Matures in 80 days.

30	80	2 80
----	----	------

Morse Bunching. A variety especially developed for bunching. Grows 7 to 8 inches long. Matures in 75 days.

30	90	2 85
----	----	------

Cauliflower Sow in April and May

Early Snowball A. The best early sort.

Heads large and compact. Always a good cropper. Matures in about 95 to 110 days. We offer a very fine strain. It has given excellent results in both New York State and New Jersey.

Pkg.	Oz.	1/4lb.	Lb.
\$0 25	\$2 00	\$7 50	\$22 50

Celery

Sow in March and April in open; transplant in July

Emperor or Fordhook. Green variety.

Plants stocky and compact; stems thick, round, and of fine quality. Excellent green Celery for late fall use and for winter storage. Maturity 135 days.

Pkg.	Oz.	1/4lb.	Lb.
\$0 10	\$0 80	\$2 25	\$8 50

Giant Pascal. A tall late green Celery of excellent quality. Leaf-stalks round, thick, and solid. Maturity 140 days.

10	80	2 25	8 50
----	----	------	------

Golden Plume. Strain No. 4162, bred to fill the need for a taller, longer-stemmed Golden Plume. Early, easily blanched, compact and straighter in form. A good producer. Normally 24 to 26 inches tall, with stems 7 to 8 inches long and hearts full. Maturity 85 days.

10	95	2 85	9 50
----	----	------	------

Golden Self-Blanching. Medium late and particularly valuable for shipping. A very uniform selection of Dwarf Golden Self-Blanching. Plant heavy, compact, full hearted; commonly 22 inches tall. Edible stalks 6 to 8 inches long. Maturity 90 days.

10	85	3 00	9 00

Sweet Corn Plant April 1 to July 15

HYBRID VARIETIES

Calumet. Recently introduced hybrid. Plant vigorous, relatively resistant to drought and almost suckerless. Ears carried about 8 inches higher than Golden Cross. Cylindrical ears $8\frac{1}{2}$ to 9 inches long, with 12 to 14 rows of light yellow kernels. Stalk is 7 feet tall. Matures in 86 days.	Lb.	5 lbs. per lb.	10 lbs. per lb.	50 lbs.
	\$0 60	\$0 55	\$0 53	\$25 00
Carmelcross, Improved. A second-early yellow hybrid, vigorous and heavy yielding in comparison to its earliness. Ears $7\frac{1}{2}$ inches long, with 12 to 14 rows of kernels. Stalk $5\frac{1}{2}$ feet tall. Matures in 79 days.	55	50	45	21 00
Golden Beauty. All-America winner for 1955. Ear $7\frac{1}{2}$ to 8 inches long by $1\frac{3}{4}$ inches thick, 12 rows. Kernels of medium depth and width. Ears are well filled. Good dark green husk cover. Plant 6 feet tall, with very few suckers. Ear and plant more attractive than Marcross and of better quality. This hybrid was developed by W. H. Lachman, University of Massachusetts. Matures in 68 days.	65	60	55	26 00
Golden Cross Bantam. The leading yellow hybrid Sweet Corn. It is very productive, has good appearance and quality. Ears 7 to 8 inches long; stalk 5 feet. Highly resistant to Stewart's wilt disease. Matures in 86 days.	55	50	45	21 00
Golden Grain. A very vigorous grower 7 to 8 feet tall, with one good ear to stalk. Kernels deep and of good golden color, 18 to 20 rows per ear. Very drought and earworm resistant. Matures in 82 days.	55	53	50	24 00
Golden Rocket. A very early yellow hybrid and one of the best. Stalk about 5 feet. Ear 7 inches long, with 12 rows of kernels. Matures in 67 days.	55	50	45	21 00
Golden Security. A recent introduction for the main-crop market trade. An extra-heavy yielder, averaging two ears per stalk. Ears are 8 to $8\frac{1}{2}$ inches long and $1\frac{1}{4}$ inches in diameter, with 14 to 16 regular rows. A tight husk restricts earworm damage to the extreme tip of the ear. The bright golden yellow kernels are tender, deep and of good quality, narrower than Golden Cross Bantam. Grows $7\frac{1}{2}$ feet tall. Vigorous foliage and a deep root system are insurance against drought. Matures in 83 days. Originator's seed.	60	55	53	25 00
Lochief. Deep golden yellow ears 9 to 10 inches long, with 16 to 18 rows of deep grains. Excellent deep color, flavor and tenderness. A good yielder. Recommended for the home and market and for freezing. Maturity 85 days.	55	50	45	22 00
Logreen 191 x 12E. White hybrid; kernels are deep and narrow. Developed from inbred Evergreen lines. Ears 8 inches in length. Tight husks help to resist worm trouble. Highly recommended. Matures in 92 days.	60	55	53	25 00
Iroquoian. Grows 8 to 9 feet tall; very vigorous and drought and wilt resistant. Ears 9 to 10 inches long, with 16 to 18 rows of yellow, deep kernels. Dependable producer of big ears.	60	55	53	25 00
Lincoln. Ears 8 to 9 inches long, with 12 to 16 rows of bright golden kernels. Stalks 6 feet tall. An All-America winner, desirable for freezing, home and market use. Matures in 83 days.	55	50	45	21 00
Marcross 13 x 6. One of the earliest of the hybrids. Matures in 73 days. Height of stalk 5 feet; ears 7 inches.	55	50	45	21 00

HYBRID VARIETIES, continued

New Jersey Hybrid No. 106. Produced by Dr. Snell of the New Jersey Agricultural Experiment Station. It has borne 30 percent more marketable ears than Marcross in the same early market season. Ears 7 to 8 inches long and $1\frac{1}{8}$ inches in diameter, with 12 to 14 rows. An attractive, slim, cylindrical ear, well filled to the tip. Medium yellow kernels of good flavor. Grows 6 feet tall. Matures in 71 days.	5 lbs. per lb.	10 lbs. per lb.	50 lbs.
	\$0 60	\$0 55	\$0 53 \$25 00

Stowell's Hybrid 3 x 33. Ears very uniform, 8 to 9 inches long, with 18 to 20 rows of snowy white kernels. Plants 8 to 9 feet tall, with heavy stiff stalks and bearing two ears; rarely suckered. Matures in 93 days.	60	55	53	25 00
--	----	----	----	-------

OPEN-POLLINATED GOLDEN VARIETIES

Golden Bantam. Extra early. Small stalks. Easy growing. Good for garden use. Very sweet. Matures in 70 days.	50	45	40	14 00
--	----	----	----	-------

OPEN-POLLINATED WHITE VARIETIES

Country Gentleman or Improved Shoe-Peg. Kernels irregularly arranged. Matures in 88 days.	50	45	40	14 00
Howling Mob. An early Sweet Corn. Good yielder. Most stalks bear two ears. Excellent for table or market. We recommend it. Matures in 78 days from sowing.	50	45	40	13 00
Stowell's Evergreen. Late or main-crop, standard variety. Ears large, deep-grained. We have an extra-good strain of the true Evergreen. Matures in 92 days from sowing.	50	45	40	13 00

CORN EARWORM OIL. For the control of Corn Earworms in Sweet Corn. Prepared in accordance with the formula recommended by U. S. Department of Agriculture Bulletin No. E-497, February, 1940. One gallon treats an acre. Qt. 80 cts.; gal. \$2.75. Handy garden size with Applicator, 35 cts.

Field Corn Plant in May

We are pleased to announce that we have been selected to represent the DeKalb Agricultural Assn., Inc., of DeKalb, Ill., in selling their hybrids in this area. DeKalb is the largest producer of Corn hybrids in the United States, selling in a maturity range from northern Minnesota to central Texas and Mississippi. DeKalb has the widest selection of proved varieties of any organization in the seed business. From their many varieties, their experts have helped us select the three best suited to this area.

DeKalb-406. 90-day grain maturity. DeKalb's biggest seller in this maturity zone. High yielding; long ears with deep Bus. kernels. Tolerant to attacks of leaf blight.	Lb. 25 cts.	\$12 30
DeKalb-837. 115-day maturity. A new variety developed for ruggedness, yield, and blight and drought tolerance. Wide soil adaptation.	Lb. 25 cts.	11 50
DeKalb-850. 115-day maturity. An old standby for quality of grain, consistently good yields and blight tolerance. Wide adaptation to soil and weather conditions.	Lb. 25 cts.	11 50
Patriot Hybrid No. T X 1. The hybrid for ensilage. Stalks 16 feet high. Field-tests have shown a yield of $3\frac{1}{2}$ tons of stalks to acre.	Bus. of 56 lbs.	\$0 20 \$9 50
Lancaster County Surecrop. Ears about 14 inches long, with 14 rows of kernels. Open pollinated. Matures in about 100 days.	15 50	20 9 25
U. S. 13. Extensively used hybrid. A heavy yielder.	25 13 50	
New Jersey Hybrid No. 4. Flat Grades. Recommended for silage.	25 12 50	
New Jersey Hybrid No. 7. Flat Grades. The hybrid brought out to combine the good qualities of both No. 2 and No. 4. Heavy yielding.	25 12 50	
New Jersey Hybrid No. 8. Flat Grades. New development to increase size of ear slightly and to promote better uniformity.	25 12 50	

Pop-Corn *Plant April 1 to July 1*

Salsify or Oyster Plant *Sow May and June*

Sandwich Island. Delicious root-crop with flavor like oysters.....	Oz.	¼lb.	Lb.	
	\$0 40	\$1 20	\$4 00	

Savory *Sow April to June*

Summer. Used for seasoning soups and dressings.....	Pkg.	Oz.	¼lb.	
	\$0 10	\$0 50	\$1 50	

Sorrel

French Broad Leaf. Leaves large, oblong, medium green, of slightly acid flavor. 60 days to maturity.....	Pkg.	Oz.		
	\$0 10	\$0 75		

Spinach

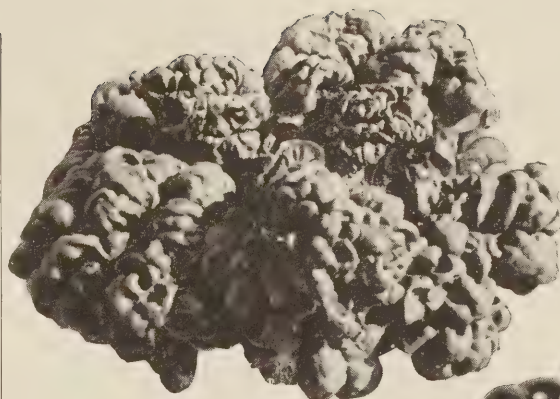

Sow March and April for spring use; August or September for fall use

America. Silver Medal Winner for 1952. This new introduction is an excellent long-standing, heat-resisting, heavy-yielding, savoy-leaved Spinach. Glossy dark green. 55 days to maturity.....	10 lbs.	100 lbs.		
	Lb.	per lb.	per lb.	
	10 lbs.	\$0 20	\$0 50	\$0 45
	Oz. 10 cts.	\$0 20	\$0 50	\$0 40
Bloomsdale Savoy Reselected. A first-early, vigorous variety, maturing in 39 days. Plant uniform, hardy and attractive. Leaves large, oval, heavily savoyed dark glossy green.....	Oz. 10 cts.	20	50	40 35
Long-Standing Savoy. Used mostly for spring sowing, since it holds 12 to 14 days longer than Bloomsdale before throwing seed stalks. Plant attractive, with highly crumpled, dark green leaves. 42 days to maturity.....		20	50	40 35
New Zealand. The summer variety mostly used in home-gardens. Although not a true Spinach, it resembles Spinach both in taste and in appearance of leaves. Plants large and spreading. 70 days to maturity.....	Oz. 10 cts.	25	70	
Old Dominion. Resistant to mosaic and of long-standing character. Plant similar to Bloomsdale Savoy but leaves somewhat more pointed. 42 days to maturity.....	Oz. 10 cts.	20	50	42 37

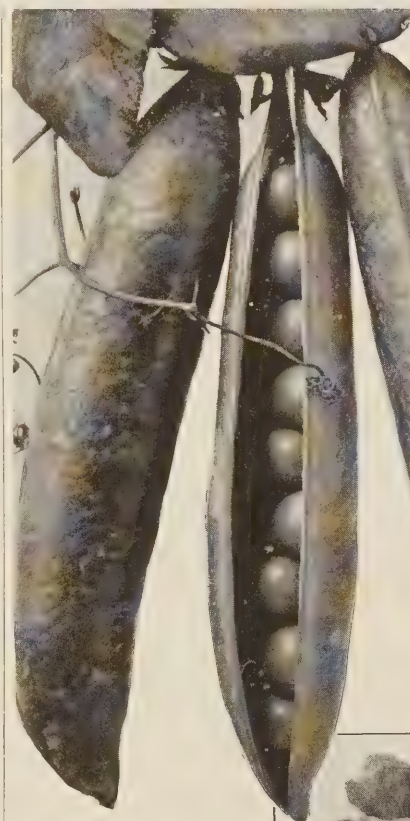

Swiss Chard or Spinach Beet

Sow March to June

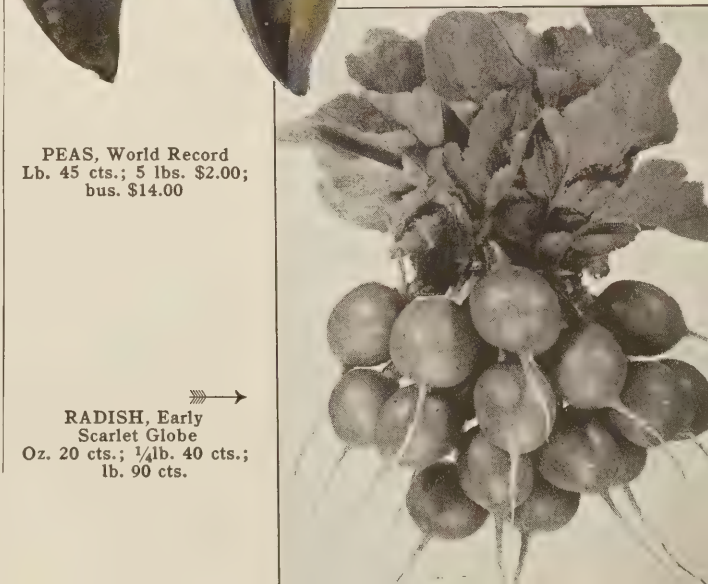

Dark Green. Smooth leaves of medium dark green, with slender ribs of lighter color. Leaves used for greens. 55 days to maturity.....	Oz.	¼lb.	Lb.	
	\$0 20	\$0 40	\$1 35	
Lucullus. Leaves crumpled, bright yellowish green; stems thick, broad, pale green. 50 days to maturity.....	20	40	1 35	

SPINACH, America
¼lb. 20 cts.; lb. 50 cts.; 10 lbs. \$4.50

PEPPER, Yolo Wonder
Pkg. 10 cts.; oz. 70 cts.; ¼lb. \$2.10

PEAS, World Record
Lb. 45 cts.; 5 lbs. \$2.00; bus. \$14.00

RADISH, Early Scarlet Globe
Oz. 20 cts.; ¼lb. 40 cts.; lb. 90 cts.

Squash, Summer Varieties

Sow April 1 to July 20

Early Prolific Straightneck. An attractive, productive variety. Fruits are straight and uniform and of bright lemon-yellow color. Very early—50 days to maturity.....	Oz.	1/4lb.	Lb.	5 lbs. per lb.
	\$0 20	\$0 60	\$1 55	\$1 50
Early Summer Crookneck. An extensively used summer sort. Plants very prolific. Fruits curved at neck, light yellow and covered with warts. 58 days to maturity.....	20	60	1 55	1 50
Early White Bush or Pattypan. Scallop; white skin. Excellent quality for home use. 52 days to maturity.....	20	60	1 55	1 50
Green-tinted White Bush Scallop. Similar to Pattypan, except that it has a greenish tint which it retains until maturity. 55 days to maturity.....	20	60	1 55	1 50
Long Cocozelle. Elongated; green. Squash are best when 10 to 12 inches long and when fried are superior to eggplant. Hardy grower. Can be planted earlier than White Bush. 55 days to maturity. We have a special strain of this variety developed for earliness and uniformity.....	20	60	1 70	1 65
Mammoth White Bush. Identical with the Early White Bush except that it is larger and later in maturing (56 days). 10 to 12 inches in diameter.....	20	60	1 55	1 50
Zucchini Black. Similar to Cocozelle except shorter. Skin darker, 6 to 8 inches long, 3 inches in diameter. 62 days to maturity.....	20	60	1 55	1 50

Squash, Winter Varieties

Sow June 1 to July 15

Blue Hubbard. A large Squash of the Hubbard shape but the color is gray. The shell is hard; a very good keeper. Fruit 15 to 18 inches long and 9 to 12 inches in diameter. 110 days to maturity.....	Oz.	1/4lb.	Lb.
	\$0 20	\$0 60	\$1 75
Boston Marrow. New red strain. Fall and winter variety. Grows 12 to 15 inches long and 9 to 12 inches in diameter. Skin red; salmon-yellow flesh, fine-grained and of excellent flavor. Grown more than any other. 98 days to maturity.....	15	40	1 10
Butternut. Fruits bottle shaped, 10 to 12 inches long by 4 to 5 inches at greatest diameter. Smooth, yellowish brown with hard shell. Flesh is yellow and sweet; makes delicious pies.....	25	75	2 50
Golden Hubbard. Smaller than Boston Marrow—10 to 12 inches long and 7 to 9 inches in diameter. Somewhat warted; golden yellow. An extra-good keeper. 100 days to maturity.....	20	60	1 75
Green Hubbard. Similar to Golden Hubbard but rind is dark green. Extra good keeper....	20	60	1 75
Royal Table Queen. Also called Mammoth Table Queen. Bears larger fruits than the regular variety. Color deep green.....	20	50	1 50

Sweet Basil

Herb with sweet-scented leaves used for seasoning Pkg. Oz.
soups and stews.....\$0 10 \$0 40

Sweet Marjoram

Annual herb used for flavoring.....1/4oz. 20 cts. 10 50

In our store addition we offer farm and garden tools, equipment, and supplies made by leading and reliable manufacturers. Tools and equipment for planting, cultivating and spraying. Supplies for every purpose.

Tomato

Sow in greenhouses in February; coldframes in March; in open April 1 to May 15

NOTE: Days to maturity indicate the time required from setting of plants to marketable fruits.

Beefsteak Red. Large, solid fruit of good color. For the home-garden but not recommended for commercial growing because it is not a heavy bearer.....	Pkg.	Oz.	1/4lb.	Lb.
	\$0 10	\$0 85	\$2 50	\$9 00
Garden State. New Jersey Certified Seed. 80 days maturity. Developed from crosses involving Pritchard, Marvel and Pink Topper. Plant vigorous, partially resistant to fusarium wilt and late blight. Fruits slightly flattened globe shape, attractive in color and size, thick walled and mild flavored.....	10	55	1 65	5 50
Marglobe. New Jersey Certified Seed. 77 days maturity. An excellent strain of this well-known and widely used variety. Plants vigorous, dark green. Fruits large, nearly round, smooth, bright deep scarlet with solid interior and small seed-pockets.....	10	60	1 80	6 00
Ontario. 80 days maturity. A cross between Bounty and Rutgers. Color red; fruit uniform in ripening. May be called second early, as the fruit ripens between Valiant and Rutgers. Good cropper....	10	70	2 00	7 00
Pritchard (Scarlet Topper). New Jersey Certified Seed. 74 days maturity. Fruits globular with thick walls; color light scarlet. For market-gardens, shipping and canning.....	10	70	2 00	7 00
Queens. 73 days maturity. Originated by Dr. L. C. Schermerhorn of New Jersey Experiment Station from a cross between Valiant and Rutgers. Matures about 10 days ahead of Rutgers. Fruit globe shaped, smooth, bright red.....	90	2 75	9 50	
Rutgers. New Jersey Certified Seed. 80 days maturity. An introduction by the New Jersey Experiment Station which has deservedly achieved general popularity. Used for canning, green-wrap shipper and general market. Plant large with thick stems and vigorous foliage. Fruits globular, bright red, smooth, with thick walls and small seed-cells.....	10	50	1 50	5 00
Valiant. New Jersey Certified Seed. An early variety—66 days maturity. Fruits globular, medium-sized, firm, bright red, quite smooth. The leading first-early Tomato.....	10	80	2 40	8 00
PINK, YELLOW AND SMALL-FRUITED TOMATOES				
Oxheart. Plant open and spreading. Fruits heart-shaped, pink, very solid. Light yielder. 90 days.....	10	1 25	4 00	
Ponderosa. Plant large and spreading. Fruits large, flat, purplish pink. 88 days.....	10	1 00	3 00	
San Marzano (Large Red Plum). Fruit 2 1/2 inches in length, blocky in shape, bright scarlet. Used for preserving....	10	90	2 70	9 50
Sunray. Large yellow globe variety, solid and firm. Good yielder.....	10	75	2 50	
Yellow Plum. Yellow-fruited kind with oval, plum-shaped fruit. For preserves..	10	75	2 50	

HYBRID TOMATO, F 2. 80 days maturity.

A midseason hybrid. Firm, smooth, scarlet-red fruit with thick walls. Flesh fine flavored and of excellent quality. Plants extremely vigorous and heavy bearing.....

Pkg. 4 Pkgs.
\$0 30 \$1 00

We grow large quantities of field-grown Tomato plants for second and late plantings. Plants ready about May 25 and available during the month of June.

ALL PRICES SUBJECT TO MARKET CHANGES

Turnip

Sow March or April for spring crop; July 15 to September 10 for fall crop

Amber Globe Green-Top. A medium-sized root, rather late-maturing. Fine pale yellow, globe-shaped, with a short green crown. 75 days.....	Oz.	¼lb.	Lb.
	\$0 20	\$0 40	\$1 00
Aberdeen Purple-Top Yellow Globe. Similar to Green-Top Amber Globe, except that the crown is purple. 80 days.....	20	40	1 00
Golden Ball. An excellent golden yellow, ball-shaped Turnip which does not grow very large. 65 days.....	20	40	1 00
Purple-Top White Globe. Globe-shaped Turnip with a purple crown and the rest pure white. This is the most popular of all Turnips and the quickest grower. This is much used for broad-casting with grass. 55 days.....	20	40	1 00
Seven-Top. The abundant tops are used for greens in the manner of spinach, making a delicious dish. 30 days.....	15	35	90

Watermelon

Plant in May and June

Blacklee. Developed at Florida Experiment Station. Very resistant to fusarium wilt. Fruits of Tom Watson type but somewhat thicker and shorter; weight 30 pounds. Rind dark green, thin but tough; flesh bright red. 95 days.....	20	70	2 00
Congo. Bred for resistance to anthracnose, but not immune. Tough rind and firm, fine-grained flesh makes it a good shipper. Fruits are oblong, blocky, dark green faintly striped with lighter green. Weight 30 to 35 pounds. 90 days.....	25	75	2 25
Dixie Queen. Wilt-resistant. The leading variety. Fruits oblong or nearly round, medium size, light green, striped and blotched with dark green. Flesh rich scarlet, extremely sweet with very few seeds. Very popular. 85 days.....	20	70	2 00
Florida Giant. Also called Cannon Ball and Black Diamond. Vine vigorous and productive. Fruits dark green, nearly round; flesh firm and red. Good shipper. Weight 40 pounds. 95 days.....	20	70	2 00
Garrison. Fruits are long, cylindrical, white with irregular green stripes. Flesh bright red and sweet. Seeds white. 88 days.....	20	70	2 00
Kleckley's No. 6. A wilt-resistant variety developed at the Iowa Experiment Station. Of the same type as Kleckley's Sweet and with as high a sugar content. Rind thin but tough. Weight 30 pounds. 85 days.....	20	65	1 75
New Hampshire Midget. New icebox type. Fruit almost round, about 6 inches long by 5½ inches wide. Rind thin, light green with dark green mottling. Good quality, very early and productive. Weight about 5 pounds. 65 days...	25	75	2 25
Preserving Citron. Used for preserving. Red seed. 90 days.....	20	65	1 75
Stone Mountain No. 5. Wilt-resistant. A good popular melon for market or for home use. Large, oval-round; dark green rind; solid scarlet flesh. Early for its size. 90 days.....	20	65	1 75
Tom Watson. Large green-rind melon. A good shipper. 95 days.....	20	65	1 75

Thyme

French Broadleaf. Herb used for flavoring....	Pkg.	¼oz.	Oz.
	\$0 10	\$0 25	\$0 75

Rutabaga Sow July 15 to August 15

Improved American Purple-Top. Flesh deep yellow; purple top; excellent flavor. Rapid grower. Should be sown in rows and cultivated. 90 days.....	Oz.	¼lb.	Lb.
	\$0 25	\$0 55	\$1 75
Pennsylvania Purple-Top. An excellent strain of improved Rutabaga. Roots large, globular, inclined toward top shape, yellow with purple top. 90 days.....	25	70	2 00

Ledden's ANNUAL and PERENNIAL Flower Seeds

NEW INTRODUCTIONS

CELOSIA, Toreador (Cockscomb). Bronze Medal, All-America Selections, 1955. A very large comb of rich, lustrous bright red. Can be used for garden display, for cutting and drying for winter arrangements. Height 18 to 20 inches. Pkg. 1/4oz. 1/2oz. \$0 35 \$1 50 \$2 75

COLUMBINE, McKana's Giant Hybrid (Aquilegia). Bronze Medal, All-America Selections, 1955. The first perennial to receive an award in recent years. Large, showy flowers with long spurs, widely flared. Colors include white, yellow, red, pink, rose, cream and violet. Flowers 3 to 4 1/2 inches across, with 3-inch spurs. Strong, free-blooming plants 20 to 26 inches tall. 35 1 65 3 00

PETUNIA, Prima Donna. Bronze Medal, All-America Selections, 1955. Bears a profusion of bright rose-pink, well-fringed flowers 3 1/2 to 4 inches in diameter. Dwarf, compact and vigorous plant about a foot high. Shows color early and is a free bloomer. 50

AFRICAN DAISY, Mixed Colors (*Dimorphotheca*). Daisy-like flowers about 3 1/2 inches across, in a wide range of colors. Used for cutting, edging and rock-gardens. Pkg. 1/4oz. Oz. \$0 10 \$0 50 \$1 50

AGERATUM, Blue Perfection. An annual with large heads of deep blue flowers on 1-foot plants. 10 40 1 10

Blue Wonder. Very dwarf strain of the finest compact type. Large flowers 4 to 5 inches above the ground. Splendid for borders, edging and pots. 10 75 2 25

ALYSSUM, Carpet of Snow. Low, creeping annual; plant about 3 inches high, with heads of tiny, fragrant white flowers all summer. Used for edging, window-boxes, etc. 10 35 1 00

Royal Carpet. Top All-America Winner for 1953. A neat and well-behaved edging for the flower bed. Grows only a few inches high but 10 inches across. Flowers when only a few weeks old until end of season. Color vibrant purple. 25 90 3 00

Saxatile, Basket of Gold. Perennial. Gray-green foliage and half-shrubby plants covered with a mass of bright yellow flowers in spring. Good for rock-garden. 10 35 1 00

Violet Queen. Annual. Dwarf, compact plant covered with small violet-colored flowers. A free bloomer. 10 40 1 25

AMARANTHUS, Molten Fire (Summer Poinsettia). Dark foliage, with brilliant poinsettia-like flower heads. Grows 4 feet high. Definitely "different". 15 60 1 75

Tricolor Mixed. Large leaves of brilliant red, scarlet and yellow. An annual reaching 3 feet. 10 30 90

ASTER, American Branching Wilt-resistant, Mixed. Free branching plants with large, compact flowers in all the Aster colors. A splendid late Aster. 10 50 1 50

Wilt-resistant Super Giants. Largest of all Asters and a superb cut-flower because of its long, wiry, non-branching stems and huge, ostrich-feather flowers. Until now its use has been sharply restricted because of its lack of wilt resistance. 25 75 2 25

Our Aster seeds are grown by a leading California flower-seed grower specializing in growing wilt-resistant strains.

Giant Crego, Wilt-resistant Strain, Mixed.

Beautiful, long-stemmed flowers of lacy form like Japanese chrysanthemums. Shades of crimson, rose, violet, pale blue, pink, white, etc. One of the most popular of the Annual Asters. The plants are strong and produce quantities of blooms 5 inches in diameter. Pkg. 1/4oz. Oz. \$0 10 \$0 50 \$1 50

Wilt-resistant Strain, Blue, Red, Pink, and White. We offer these in separate colors. 10 50 1 50

Powderpuffs, Mixed. New wilt-resistant variety. Wide range of colors. Plants bear 3 to 3 1/2-inch flowers in such abundance that the foliage literally cannot be seen. Blooms in August. 25 1 00

Queen of the Market, Wilt-resistant, Mixed. Early-flowering variety of branching habit with long stems for cutting. 10 45 1 40

BALSAM, Camellia-flowered, Double, Mixed.

Quick-growing, hot-weather annuals with brilliant, double, waxy flowers of curious shape all up the stems. Scarlet, crimson, pink, white, and many intermediate and variegated shades. 10 30 85

BALSAM APPLE (*Momordica*). An attractive annual climbing vine with large yellow flowers and apple-shaped fruits. 10 25 75

BLACK-EYED SUSAN, Fine Mixed (*Thunbergia*). Yellow, buff and orange shades, with black eye. Pretty little vine for hanging-baskets, window-boxes and for use as a trailing ground cover. 10 75 2 50

BLUE LACE FLOWER (*Didiscus cærulea*). Annual. Plants 1 1/2 feet high, with lacy heads of azure-blue flowers. A fine cut-flower. 10 55 1 65

CALENDULA, Ball's Orange. Very popular annual cut-flowers. Big, circular blooms of many vivid orange-yellow petals. 10 30 80

CALLIOPSIS, Mixed. Graceful annual plants blooming all summer, with lovely daisy-like flowers of red, orange, and gold. 10 25 75

CANDYTUFT, Umbellata, White (*Iberis*). An annual with immense spikes of pure white flowers. 10 25 75

Umbellata, Finest Mixed. Pretty cutting annual about a foot high with spikes of flowers of various shades of pink, white, red, and purple. Blooms quickly from seed in early summer. 10 20 60

CANTERBURY BELL, Cup and Saucer (*Campanula Medium Calycanthema*). Biennial. Plants bloom profusely. Shades of pink, blue and white. 10 50 1 60

CARDINAL CLIMBER (*Ipomæa Quamoclit*). An annual climber with fern-like foliage covered with a blaze of cardinal-red flowers in late summer and fall. 10 30 90

CARNATION, Marguerite, Mixed. Beautiful double flowers of various colors with spicy fragrance. Annual. 10 60 1 85

Chabaud's Giant Improved. An annual with double blooms 2 inches in diameter, deeply fringed. Profuse bloomer; 1 1/2 to 2 feet tall. 15 60 2 00

Grenadin Mixed. A perennial Carnation bearing large, double, fringed flowers. Grows 2 feet tall. 15 90 2 50

CENTAUREA, Jubilee Gem. Annual. Dwarf compact plants covered with double dark blue flowers. Very distinct. Height 12 inches. 10 35 1 00

Blue (Bachelor's Button). Annual. The lovely Cornflower with rich blue flowers. Excellent for cutting. 10 25 75

Cyanus, Mixed (Cornflower; Bachelor's Button). Popular annual for cut-flowers and buttonholes. Blue, pink, red, white, etc. 10 25 75

CELOSIA cristata, Tall Crimson (Cockscomb). Height 24 inches. Stately crimson combs. Impressive in the garden.....	Pkg.	1/2oz.	Oz.
	\$0 10	\$0 60	\$1 75
Golden Fleece. New form of Ostrich Plume or feather Cockscomb. Plumages are huge and dense, on long cutting stems, dozens of them to the plant. Used as either a showy border plant or a cut-flower.....	25	50	1 50
Pampas Plume. New brilliant colors of autumn leaves. The 30-inch plants bloom 75 days from seed. A quick-growing, heat-loving, pest-free plant that produces big, fleecy flowers either for cutting or outdoor display.....	25	65	2 00
Plumosa, Mixed (Feathered Cockscomb). An annual plant with large willowy plumages of brilliant colors.....	10	30	1 00
CHINESE LANTERN (<i>Physalis Francheti</i>). Produces bright red lanterns or calyxes used for winter bouquets.....	10	40	1 25

Indian Spring. Annual. Semi-double fringed flowers in bright rose and carmine shades. Plants 4 to 5 feet high.....	10	30	85

Ledden's ANNUAL and PERENNIAL FLOWER SEEDS, continued

HYACINTH VINE (<i>Dolichos Lablab</i>). Annual. A rapid-growing vine with large, heart-shaped foliage and purple and white flowers. \$0 10 \$0 15 \$0 45					
KOCHIA scoparia (Burning-Bush). An annual with 3-foot bushy plants turning deep red in autumn.	10	15	40		
KUDZU VINE (<i>Pueraria Thunbergiana</i>). A perennial vine with large leaves and purplish violet flowers.	10	25	65		
LANTANA, Dwarf Hybrids, Mixed. Heads of verbena-like flowers in shades of yellow, red, orange and pink. Height 1½ feet.	10	50	1 50		
LARKSPUR, Giant Imperial Mixed. Annual. Beautiful flower-stalks 3 to 4 feet tall, close to center stalk. Large double flowers in a wonderful range of colors.	10	30	80		
Regal, Finest Mixed. Produces long thick spikes and delphinium-like florets. The new Regal Larkspur suits critical florist standards, yet these same features make it a superb performer in the home-garden.	10	30	85		
LATHYRUS latifolius, Mixed (Everlasting Pea). Perennial. A hardy climber with pea-shaped flowers of red, pink, and white.	10	40	1 25		
LINARIA, Excelsior Hybrids, Mixed. Annual. Plants 1½ feet high, with miniature snapdragon-like flowers of bright shades.	10	30	90		
LINUM perenne (Perennial Flax). Plants 2 feet tall. Light blue flowers.	10	25	75		
LOBELIA, Crystal Palace. Used for flower boxes, hanging-baskets, borders. Plants 4 to 6 inches tall, with deep blue flowers.	10	60	2 00		
LUNARIA (Honesty or Money-plant.) A 2 to 3-foot biennial bearing single flowers ranging from purple to white. These are followed by flat, papery seed-pods which when dried provide lasting ornamental material for winter bouquets.	10	25	65		
LUPINUS polyphyllus, Russell's Hybrids, Mixed (Lupin). Perennial. Fine spikes of flowers in a wide range of colors, including yellows and various new colors.	10	35	1 00		
MARIGOLD, African Double, Tall, Mixed. Well-known, strong-scented annuals with very double, perfectly symmetrical flowers of lemon-yellow and orange.	10	30	90		
Crown of Gold. Medium-sized flowers of bright golden orange with a crown of small petals surrounded by a collar of larger ones. Plants 2 feet tall.	10	30	90		
Cupid. The sole Extra Dwarf African Chrysanthemum-flowered Marigold in use. It is a perfect pot or edging Marigold bearing 2½ to 3-inch, lemon-yellow flowers in profusion on a compact, 8-inch plant.	25	1 20	4 00		
Extra Dwarf Double Mixed. For bedding and border work. 6 to 8 in. tall.	10	35	1 00		
French, Dwarf, Double, Mixed. Yellow, orange, and brown.	10	30	90		
French, Flash. Single flowers 1¼ inches across, red through bronze and yellow. 18 inches tall.	10	30	90		
French, Harmony Hybrids Mixed. Branching plants bearing 2-inch flowers in a wide color range. Fine for cutting and bedding. Grows 12 to 14 inches tall.	10	30	90		
Spanish Flag, Mixed. A blend of the modern dwarf, free-blooming, single Marigolds—reds, yellows, bicolors. Includes Naughty Marietta, Sunny, Flash and Red Head.	10	30	90		
Mammoth Mum. Large, light sulphur-yellow, ball-shaped flowers with pretty, incurved florets. Grows 2½ feet tall. Late blooming.	10	70	2 00		
Sun Giants, Mixed. An improvement on Sunset Giants. Extremely large flowers of carnation and sponge-like types. Wide color range. Height 3½ feet.	10	40	1 20		
Yellow Supreme. Large, carnation-like flowers of pure yellow; sweetly fragrant. Strong, free-blooming plants.	10	30	90		
MIGNONETTE, Machet Sweet-scented (Reseda). Old-fashioned annuals with flowers of wonderful fragrance.	\$0 10	\$0 20	\$0 60		
MOONFLOWER (<i>Ipomœa mexicana grandiflora</i>). Vigorous annual vine with huge salver-shaped white flowers open at night.	10	20	50		
Heavenly Blue. Extremely early flowering, of compact habit, and its true heavenly blue coloring makes it distinct.	10	20	50		
MORNING-GLORY, Heavenly Blue. Early-flowering sky-blue variety.	10	20	50		
Scarlett O'Hara. Gold Medal, All-America Selections. Flowers about same size as Heavenly Blue, but a beautiful shade of carnation-red or carmine.	10	25	80		
Mixed. Superb annual vine for arbors, etc. All colors.	10		25		
NASTURTIUM, Globe of Fire. Giant, double and semi-double flowers of brilliant scarlet, borne in greatest profusion. Plant grows 1 foot high and 1½ feet wide.	10		25		
¼lb. 60 cts.; lb. \$2.15					
Golden Globe. Large, double and semi-double, golden yellow flowers. Grows 1 foot high and 1½ feet wide. A heavy bloomer. ¼lb. 60 cts.; lb. \$2.15	10		25		
Double Hybrids, Mixed. Double flowers. Grows 1 foot high and 1½ feet wide.	10		25		
¼lb. 60 cts.; lb. \$2.15					
Tall, Mixed. Single flowers in colors ranging from deepest velvety crimson to pale yellow. Annual of almost climbing habit.	10		25		
¼lb. 60 cts.; lb. \$2.00					
Dwarf, Mixed. Very floriferous, dwarf annual. ¼lb. 60 cts.; lb. \$2.00	10		25		
NEMOPHILA insignis, Blue. Dwarf early bloomer. Flowers cup-shaped, sky-blue. For edging and rock-gardens.	10	20	60		
NICOTIANA Sanderae Hybrids. These are bushy annual plants with showy flowers of various shades of carmine, rose, and pink.	10	35	1 00		
NIGELLA damascena (Love-in-a-Mist). Annual. A border favorite with branchy plants, fine foliage, and odd-shaped blue flowers.	10	15	40		
PANSY, Swiss Giants, Fine Mixed. A fine strain of large-flowered Pansies on long stems for cutting. Beautiful colors.	25	1 60	4 85		
PETUNIA, Hybrid Single, Mixed. Favorite, annual fragrant flower of low habit for window-boxes, potting, bedding or any general garden purpose. Blooms all season.	10	45	1 25		
Alderman. Dark blue; plant compact.	10	50	1 50		
Celestial Rose. Free-flowering plant 12 to 14 inches tall. Single, deep rose-colored flowers. Most attractive for beds, borders and pots.	10	55	1 65		
Comanche. All-America Winner for 1953. Bold, plain-edged flowers of rich scarlet-red, with larger and more plentiful blooms than Fire Chief. Grows 15 inches tall and wide. For bedding, low borders and for pots and plant boxes.	50				
Fire Chief. The brilliant red Petunia of the Nana compacta type that won top awards.	25				
½oz. \$1.50					
Fluffy Ruffles. Fine mixture of veined and bi-color shades. Flowers fringed, with many so heavily ruffled they appear double.	25				
Rosy Morn. Annual. Fine pink variety.	10	50	1 50		
Rose of Heaven. A fine single bedding Petunia, with brilliant flowers of luminous rose.	10	45	1 25		
Snowball. Extra dwarf and compact, covered with pure white flowers. An excellent bedding variety.	10	45	1 25		
Balcony, Black Prince. Deep velvety red, single, plain-edged flowers, larger than ordinary bedding types. For beds, window-boxes and pots.	15	90	2 50		
Balcony Mixed.	15	75	2 50		

PHLOX Drummondii. The annual Phlox. Large flowers in a variety of colors. Dwarf Pkg. growth. Fine for edging, borders and bedding.	Pkg.	1/4oz.	Oz.
	\$0 10	\$0 50	\$1 50
POPPY, California (<i>Eschscholtzia californica</i>). Low annual plants with narrow gray-green foliage and glossy satiny flowers of yellow, orange, and shades of red.	10	25	75
Iceland (<i>Papaver nudicaule</i>). A fine biennial Poppy with fern-like foliage and producing lovely tissue-like flowers in shades of yellow, orange, and salmon. Very free blooming.	10	25	75
Oriental, Scarlet. Perennial. Beautiful red flowers blooming in June. Excellent for borders and beds. Very popular. Height 2 feet.	10	40	1 25
Shirley, Mixed. Annual. Beautiful flowers with crinkled, tissue-like petals in a wide range of soft colors.	10	25	75
PORTULACA, Single, Mixed. Moss-like, trailing annual plants for dry, hot banks or beds. Much used for edging. Bright flowers like small single roses in red, yellow, orange, white, and related shades.	10	40	1 20
Double, Mixed. Lovely annual flowers like little roses on low plants.	10	65	1 95
PRIMROSE, Colossal Mixed. A dwarf perennial with many beautiful, early spring flowers. Fine for borders and rock-gardens.	25	1/2oz. \$1.50; 1/4oz. \$2.50.	
PYRETHRUM, Robinson's Single Giant Hybrids Mixed (Painted Daisy). Extra-large flowers with long stems. A wide range of shades of rose, white and red.	10	75	2 25
RICINUS (Castor-Oil Bean). Huge, tropical-looking annual plants; handsome foliage and interesting clusters of bun-like seeds. Quick growing. Very showy.	10	1/4lb. 65 cts.	25
SALPIGLOSSIS, Mixed. Funnel-shaped, orchid-like annual flowers of an unusual range of colors marked with dark veins. Bloom until frost.	10	30	90
SALVIA, America (Scarlet Sage). Round, bushy plants covered with brilliant scarlet, upright spikes of flowers. Height 18 inches.	10	65	2 00
Bonfire (Scarlet Sage). Showiest of garden annuals, reddest of all red-flowering annuals. Height 2 1/2 feet.	10	60	1 80
St. Johns Fire. Earliest and dwarfest variety. Bright scarlet. Very uniform and compact. Grows 10 inches tall.	25	1 75	6 00
SCABIOSA caucasica, Fancy Mixed (Mourning Bride). Pin-cushion-like flowers of soft colors. A splendid long-stemmed annual cut-flower.	10	25	75
SCARLET RUNNER BEAN. Annual. A rapid climber from 10 to 15 feet high, with sprays of scarlet flowers and edible beans.	10		20
SCHIZANTHUS, Mixed. Annual. Showy, orchid-like flowers in a number of shades of light colors. A fine garden or pot-plant.	10	25	75
SHASTA DAISY, Alaska. Large single white flowers 4 to 5 inches across. Very hardy and easy to grow; 2 to 2 1/2 feet high.	10	30	1 00
SNAPDRAGON, Rustproof Tall, Mixed. A popular annual cut-flower, both under glass and in the garden.	10	40	1 25
Tetra Superfine Mixed. Believed to be the most satisfactory outdoor Snap offered today. Many colors and bicolors, some veined. Plants tall, husky and erect, with huge ruffled florets and long spikes.	25	85	3 00
SNOW-ON-THE-MOUNTAIN (<i>Euphorbia variegata</i>). Annual foliage plants with bright green foliage veined and margined white.	10	25	75
STOCKS, Ten-Weeks, Double, Mixed. The leading annual type for bedding, maturing very quickly. A fine collection of colors.	10	45	1 25

SUNFLOWER, Giant. Bold annual plants of sturdy habit with huge, wheel-like yellow flowers. Grown chiefly as a feed-crop for poultry.	Pkg.	1/4oz.	Oz.
	1/4lb. 15 cts.; lb. 50 cts.		\$0 05
SWEET PEA, Spring-flowering Cuthbertson, Mixed. Very lovely and deliciously fragrant cut-flowers of many delicate tints and color variations. Annual quick-growing vines; seed should be sown early.	1/4lb. 75 cts.; lb. \$2.50	10	\$0 25
SWEET SULTAN (<i>Centaurea moschata</i>). Annual; fragrant. White, rose, purple. Nice for cutting.	10	\$0 30	90
SWEET WILLIAM, Tall Single, Mixed. Very showy biennials in the garden and for cutting. All colors.	10	25	65
Dwarf, Double, Mixed. A popular biennial with lovely double flowers of many colors.	10	50	1 50
TITHONIA, Torch. Grows as easily as a zinnia and blooms from August until frost. Developed to grow about 2 1/2 feet in height; not to be confused with the old type. Orange-red and red flowers, fine for cutting.	10	75	2 25
VERBENA, Giant, Mixed. Excellent low annual bedding plants with clustered heads of very bright flowers in showy shades of scarlet, pink, crimson, blue, and white.	10	50	1 50
ZINNIA, California, Giant Mixed. Large, double flowers in a good variety of colors.	10	30	90
Blaze. The only All-America Selections Winner for 1954. Large, double flowers 5 inches in diameter, with quill-type petals. Color is flaming red and orange. A brilliant, showy flower for beds and cutting.	35	1 50	
Dahlia-flowered, Mixed. Dahlia-like flowers of all colors except blue or violet. Very popular for garden decoration and used by the thousands for cut-flowers. Easiest of all annuals to grow.	10	30	90
Dwarf Pompon, Mixed (Lilliput). The little Pompon Zinnias are splendid annual flowers for cutting. This mixture contains all the gay colors.	10	30	90
Elegans Pumila, Dwarf Mixed. Flowers intermediate between the Giant and Lilliput types—about 2 inches in diameter. Wide range of colors and color combinations. Grows 2 to 2 1/2 feet tall.	10	30	90
Fantasy, Mixed. Annual. Plants 2 1/2 to 3 feet high, with flowers composed of masses of shaggy ray-like petals. Shades of red, yellow, orange, pink, and cream.	10	30	90
Giant Hybrids. A widely varied mixture, generally of the cactus and chrysanthemum-flowered type, containing the usual Zinnia colors, as well as bicolors and delicate shades. Flowers are the giant type. Height of plant, 2 to 2 1/2 feet.	15	35	1 00
Peppermint Stick, Mixed. Unlike any Zinnia on the market today. Has a wide color range of blends and will run about 70 per cent striped flowers. It is of the Lilliput to Pumila class. One of the best cut-and-come-again Zinnias. An early strain.	15	45	1 25
Persian Carpet. Like tiny dahlias, each with its pointed petals tipped with contrasting color. Plants 12 inches in height. Flowers are variegated in many mixtures and blends; about the size of a silver dollar.	25	65	2 00
Super Giants, Mixed. Developed for size. Flowers are truly giant, up to 6 1/2 inches across. Wonderful colors.	10	35	1 00
Tom Thumb, Mixed. Compact plants 6 to 8 inches tall, covered with well-formed flowers of the Lilliput type. Broad color range, excellent for borders.	10	40	1 15

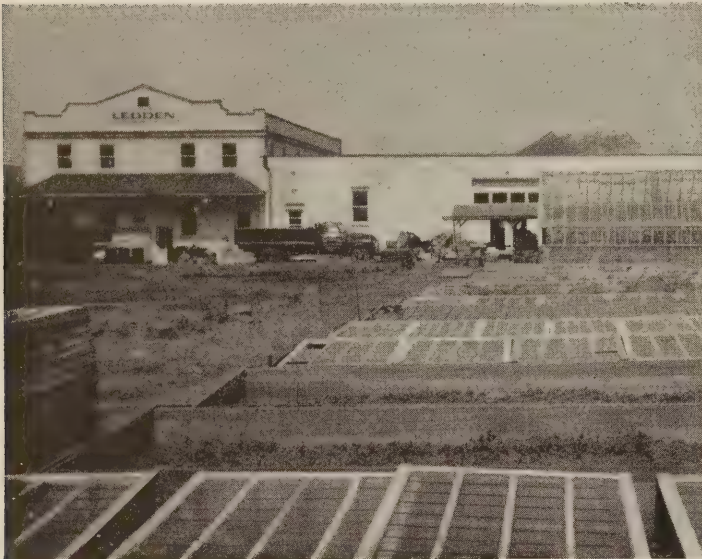

Garden Mixtures

At store: \$2.00 per 100.

ALL PRICES SUBJECT TO MARKET CHANGES

Broccoli *Plants ready May 15 to August 15*

Green Sprouting Calabrese. A heavy-producing variety. We have a very fine strain of this variety. Set plants in May for early; July and August for late.

Postage prepaid: \$1.85 per 100; \$2.75 for 200; \$3.95 for 500; \$5.00 per 1,000.

Express or Parcel Post, f.o.b. Sewell: \$3.50 per 1,000.

At store: 40 cts. for 25; 85 cts. per 100; \$3.50 per 1,000; 10,000 or more, \$3.00 per 1,000.

Cabbage Plants *Plants ready May 15 to August 10*

Chieftain Savoy. The crumpled-leaf variety, producing large heads. Should be planted in June or July.

Golden Acre. Heads are perfectly round, solid, very uniform and compact. Diameter of head 6 inches; weight 3 pounds. 64 days maturity. Yellows-resistant, early variety.

Late Flat Dutch. Large, flat head. Should be planted early in July as it requires a full season to head hard. Diameter of head 12 inches; weight 12 pounds. 100 days maturity.

Marion Market. The heads are almost round and very solid. Early variety. Diameter of head 6½ inches; weight 4½ pounds. 79 days maturity. Yellows-resistant.

Penn State Ballhead. Flattened globe type, 7 to 8 inches in diameter and 6 to 7 inches deep. Fine-grained head weighing 5 to 6 pounds. 105 days maturity.

Red Hollander. Hard-heading red variety. Yellows-resistant.

Wisconsin Ballhead. Smooth, hard, round head about 7 inches in diameter. Weight 7 pounds. 100 days maturity. Yellows-resistant.

Wisconsin Hollander No. 8. Splendid late Cabbage for storage, kraut, and shipping. Heads 7½ inches in diameter, globe shape; weight 8 pounds. 105 days maturity. Yellows-resistant.

Express or Postage prepaid: \$1.85 per 100; \$2.75 for 200; \$3.75 for 500; \$4.85 per 1,000.

Express or Parcel Post, f.o.b. Sewell: \$3.00 per 1,000; 10,000 or more, \$2.75 per 1,000.

At store: 25 cts. per doz.; 40 cts. for 25; 80 cts. per 100; \$2.00 for 500; \$3.00 per 1,000; 10,000 or more, \$2.75 per 1,000.

ALL OF OUR CABBAGE PLANTS ARE FIELD-GROWN

Cauliflower *Plants ready May 15 to August 1*

Early Snowball A. Best of all varieties for market growing because of its resistance to the heat which occurs in early summer.

Express or Postage prepaid: \$2.00 per 100; \$4.85 for 500; \$7.25 per 1,000.

Express or Parcel Post, f.o.b. Sewell: \$1.35 per 100; \$5.50 per 1,000; 10,000 or more, \$5.00 per 1,000.

At store: 25 cts. per doz.; 45 cts. for 25; \$1.00 per 100; \$5.50 per 1,000; 10,000 or more, \$4.75 per 1,000.

Collards *Plants ready May 15 to August 15*

Georgia or Southern. An excellent green. Plants form large bunches of tender leaves.

Express or Postage prepaid: \$1.85 per 100; \$2.75 for 200; \$3.75 for 500; \$4.85 per 1,000.

Express or Parcel Post, f.o.b. Sewell: \$3.00 per 1,000.

At store: 25 cts. per doz.; 40 cts. for 25; 80 cts. per 100; \$3.00 per 1,000; 10,000 or more, \$2.75 per 1,000.

Eggplant *Plants ready June 1 to June 25*

Black Beauty. The leading and best variety. Bears fruit earlier than other sorts. It is very popular because it does not lose its black color.

Florida High-Bush. Elongated dark purple fruits. Plant taller.

PULLED SASH-GROWN PLANTS. Express or Postage prepaid: \$2.20 per 100; \$5.25 for 500; \$8.00 per 1,000. F. O. B. Sewell: \$1.00 per 100; \$3.50 for 500; \$6.50 per 1,000.

At store: 25 cts. per doz.; 45 cts. for 25; \$1.00 per 100; \$3.50 for 500; \$6.50 per 1,000.

LED DEN & SONS' VEGETABLE PLANTS

Lettuce Plants

Plants ready May 15 to June 15

Express or Postage prepaid: \$1.85 per 100; \$2.75 for 200; \$3.85 for 500; \$5.15 per 1,000.

At store: 25 cts. per doz.; 40 cts. for 25; 85 cts. per 100; \$2.25 for 500; \$3.50 per 1,000.

Pepper Plants

Plants ready June 1 to July 1

California Wonder. A well-liked variety. Meat very thick and dark green, turning crimson. The heaviest and thickest Pepper on the market today. Sweet variety.

Long Red Cayenne. A red-hot variety used for pickling, drying, etc. **New Jersey World Beater No. 13.** The new strain of this popular variety. Shows considerable resistance to mosaic. Thicker walled than regular World Beater.

Red Cherry. Round red-hot variety.

PULLED SASH, ready June 1 to July 10. Express or Postage prepaid: \$2.00 per 100; \$3.00 for 200; \$5.00 for 500; \$8.00 per 1,000. Express or Parcel Post, f.o.b. Sewell: \$6.00 per 1,000.

At store: 25 cts. per doz.; 45 cts. for 25; \$1.00 per 100; \$6.00 per 1,000.

Sweet Potato Plants

Plants ready May 15 to June 25

Yellow Sweet Potato

Red Sweet Potato

Postage prepaid: \$2.00 per 100; \$3.00 for 200; \$5.00 for 500; \$7.50 per 1,000.

Express or Parcel Post, f.o.b. Sewell: \$1.25 per 100; \$6.00 per 1,000.

At store: 90 cts. per 100; \$6.00 per 1,000.

Tomato Plants

Field-Grown plants ready June 1 to July 10

We have specialized in the growing of Tomato plants during the past fifty years. This year we will have about ten acres of field-grown Tomato plants to offer to the commercial grower, canner and gardener. Almost all of our Tomato plant acreage will be planted in the leading variety, Rutgers. All of our Rutgers plants will be grown from New Jersey State Certified Seed. We expect to have field-grown Tomato plants ready the last week in May and throughout the month of June.

We will have greenhouse-grown Tomato plants to offer for transplanting to sash during March and April. We do not ship greenhouse-grown Tomato plants. The varieties that we will have in these are Valiant and Rutgers. \$4.00 per 1,000.

Garden State. Grown from New Jersey State Certified Seed. Good red fruits, globe shape, slightly flattened. Vine vigorous. 80 days maturity.

Marglobe Certified. A second-early, solid, very meaty, thick red Tomato, that ripens well up to the stem, making it very desirable for canning or table use. All of our Marglobe plants are grown from New Jersey State Certified Seed.

Rutgers Certified. The leading and best Tomato. This introduction by Lyman G. Schermerhorn, of the New Jersey Agricultural Experiment Station, is a leading development in Tomatoes. It compares in shape and size with the Marglobe but is slightly larger and a heavier yielder. The fruit ripens a deep red up to the stem, and runs very uniform in size. An excellent variety for home use, marketing, or canning. All Rutgers grown from New Jersey State Certified Seed. Highly recommended.

San Marzano (Large Red Plum). Plum type. Larger and more blocky in shape.

Yellow Plum. Small yellow plum-shaped. Used for preserving.

FIELD-GROWN TOMATO PLANTS. Parcel Post or Express prepaid: \$1.90 per 100; \$2.85 for 200; \$4.10 for 500; \$5.25 per 1,000.

Express or Parcel Post, f.o.b. Sewell: \$4.00 per 1,000.

At store: 25 cts. per doz.; 40 cts. for 25; 90 cts. per 100; \$2.50 for 500; \$4.00 per 1,000.

BIRD Vita-Bands and Pots

One of the ways to grow healthier, sturdier crops that mature early and command top prices is through the use of these famous plant bands. Nutrient-treated Vita-Band 10 aids plant growth from seedling stage through transplanting time. Nutrient-treated Vita-Band D is set with the plant, thus eliminating the possibility of transplanting shock.

Cannas

We grow the leading and popular varieties of Cannas. These are the large-flowering varieties. We offer both bulbs and potted plants (3 1/2-inch pots).

City of Portland. Beautiful pink flowers. Green foliage. 3 1/2 ft.

President. Large, brilliant scarlet blooms. Glossy green leaves. This is probably the most popular variety because of its excellent habit and brilliant shining color. Height 4 feet.

Red King Humbert. Dark red flowers. Glossy deep brown leaves. Height 4 feet.

Wyoming. Large spikes of orange flowers. Dark bronze leaves. One of the tallest varieties suitable for back rows or the center clumps of large plantings. Height 6 feet.

Yellow King Humbert. Large, golden yellow flowers, dotted with red. Leaves are light green. An old timer but scarcely surpassed by more modern varieties. Height 4 1/2 feet.

Bulbs: 15 cts. each; \$1.50 per doz.; \$12.00 per 100, postage or express prepaid. 12 cts. each; \$1.25 per doz.; \$10.00 per 100 at store.

Plants: 30 cts. each; \$3.00 per doz. (No shipments on Canna plants.)

CLOVERS, SEED GRAINS, ETC.

**DELIVERED
PRICES**

Bushel and 100-lb. prices quoted on application

Alfalfa, Atlantic. New introduction by New Jersey Agricultural Experiment Station. Recommended for New Jersey. Lb. 85 cts.; 10 lbs. \$7.50.

Alfalfa, U. S. Verified Origin. Seed grown in Kansas and North-west. Lb. 75 cts.; 10 lbs. \$6.75.

Alsike Clover. Thrives equally well in wet or dry soils. A valuable Clover to be used in sowing for mixed hay with Medium Red Clover and Timothy. Lb. 75 cts.; 10 lbs. \$7.00.

Buckwheat, New Type. A heavy cropper and less liable to blight than other sorts. The kernels are larger and the straw is stouter and heavier. Lb. 20 cts.; 10 lbs. \$1.50.

Crimson Clover. An annual Clover of strong growth, providing a good crop of forage for plowing under. It should be sown in July, August, or early September and plowed about the time it blooms. Lb. 35 cts.; 10 lbs. \$2.80.

Fodder Cane. Used for ensilage and cattle feeding. 5 lbs. 90 cts.; 10 lbs. \$1.50.

Ladino Clover. A Clover of the White Dutch type growing about 18 inches in height. Very good in permanent pasture mixture. Lb. 90 cts.

Millet, Golden. Used for quick hay or pasturage. The Golden variety is used in Pennsylvania and New Jersey extensively. Lb. 24 cts.; 10 lbs. \$1.90.

New Zealand Clover. Recommended in lawns for growth to retard and prevent crab-grass. Lb. \$1.40; 10 lbs. \$13.50.

Rape, Dwarf Essex. A quick-growing forage crop valuable for poultry or hogs, or may be used as a cover-crop. Used as a vegetable green and grown by market gardeners for that purpose. Lb. 30 cts.; 10 lbs. \$2.70.

Red Clover, Kenland. New type of Red Clover. Holds up and crops one to two years longer than regular medium type. Lb. 85 cts.; 10 lbs. \$8.00.

Red Clover, Medium. Regarded as a most valuable farm crop. Used extensively for hay and pasturage and is also valuable as a soil-builder. It is a biennial or short-lived perennial and grows 1 to 2 feet high. Lb. 70 cts.; 10 lbs. \$6.50.

Soy Bean, Black Wilson. Being used on a larger scale each season for cover-crop. We recommend it as an excellent soil-builder. Widely used for hay and ensilage for feeding of cattle.

Sweet Clover. Biennial. Used as a soil-builder. If plowed under it adds humus and nitrogen to the soil. The plant makes a rank growth. It is used some for pasture but very little for hay. Lb. 30 cts.; 10 lbs. \$2.50.

Vetch, Hairy. Used as a cover-crop, it is very valuable as a soil-builder. Can be sown with either crimson clover, rye, or wheat. September is the best month for sowing. Lb. 35 cts.; 10 lbs. \$2.80.

White Dutch Clover. Largely used in the sowing of lawns and in permanent pasture mixtures. Makes a small, compact, close growth. Lb. \$1.35; 10 lbs. \$13.00.

Grass Seeds

FANCY RECLEANED
For Lawn, Hay and Permanent Pasture

Bent Grass, Colonial. Spreads from underground rootstalks and gives a good dense sod of pleasant green color. Lb. \$1.30; 10 lbs. \$12.50.

Brome Grass, Lincoln. Coming into use as a pasture grass and also used for cutting hay. Lb. 40 cts.; 10 lbs. \$3.75; 25 lbs. \$8.75.

Fescue, Alta. Strong growing; hardy. Lb. 50 cts.; 10 lbs. \$4.70.

Fescue, Chewung's. It resists drought well, gives good results under trees, and succeeds on sandy soil. Lb. 85 cts.; 10 lbs. \$8.00.

Fescue, Illahee. Hardy Fescue. Lb. 90 cts.; 10 lbs. \$8.50.

Kentucky Blue Grass. Very valuable lawn grass forming the bulk of most good lawn grass seed mixtures. Lb. \$1.35; 10 lbs. \$13.00.

Lespedeza, Korean. Used for hay and cover crop. Lb. 30 cts.; 10 lbs. \$2.80.

Merion Blue Grass. Darker green, withstands leaf blight better and stands closer mowing than Kentucky Blue Grass. Lb. \$3.50.

Orchard Grass. One of the earliest and most desirable varieties of grasses for the sowing of pastures. Lb. 60 cts.; 10 lbs. \$5.50.

Poa trivialis. Australian grass used in shade plantings and in shady lawn grass mixtures. Strong grower. Lb. \$1.00; 10 lbs. \$9.00.

Red-Top or Herd Grass, Fancy Recleaned. One of the leading varieties used in the sowing of pastures and lawns. Will thrive well in any soil. Lb. \$1.10; 10 lbs. \$10.00.

Rye Grass, Domestic. Annual grass used for pasture and lawn. Grows well in almost any soil. Lb. 22 cts.; 10 lbs. \$1.90.

Rye Grass, Perennial. A permanent grass used for pastures or meadows. Lb. 40 cts.; 10 lbs. \$3.50.

Sudan Grass. An annual grass, growing 3 to 5 feet high, sown as an emergency pasture and hay crop. It is also used as a silage crop and is a very good soil-building crop. Close drilled or broadcast, 25 to 35 pounds per acre. Lb. 25 cts.; 10 lbs. \$2.20.

Timothy. Sow in the fall or spring and use either straight or in mixtures of clover for hay. Produces heavy crops and has remarkable vitality under all sorts of conditions. Lb. 40 cts.; 10 lbs. \$3.50.

Permanent Pasture Mixtures. For highland. For permanent cattle pasture. Lb. 55 cts.; 10 lbs. \$5.00; 25 lbs. or more, 48 cts. per lb., delivered.

Permanent Pasture Mixtures. For lowland. For permanent cattle pasture. Lb. 55 cts.; 10 lbs. \$5.00; 25 lbs. or more, 48 cts. per lb., delivered.

Poultry Range Pasture Mixture. Lb. 55 cts.; 10 lbs. \$5.00; 25 lbs. or more, 48 cts. per lb.

We will mix any lawn grass, permanent pasture, hay or cover crop mixture of grass and clover seed to the customer's specifications.

Alfalfa, Clover and Soy Bean seed should be inoculated

Nitragin Inoculants listed on page 27

Planet Jr. Garden Tools

No. 300A Planet Jr. Seeder. Price \$36.95

The No. 300A is rapidly becoming the most popular Seeder for market gardeners. It is a plate Seeder having three seeding plates, each with 13 holes, giving ample adjustment for any size seed. Adjustments quickly and easily made. Hopper removable. Many exclusive features combine to make the No. 300A easy running, dependable, and accurate. For use on muck soil and sandy soils.

A complete all-round Wheel Hoe, the best for general garden work. Can be used for weeding, cultivating, furrowing, hilling, etc. The tools are oil hardened and tempered and will wear for a long time. Complete with plow, 3 steel cultivator teeth, and a pair of side hoes. **Price \$14.95.**

No. 17 Planet Jr. Single Wheel Hoe

No. 119 Garden Plow and Cultivator Price \$9.50

119W with 5-Pronged Weeder Price \$10.50

A tool for those who prefer the extra-high wheel on their garden Cultivator. The wheel is 24 inches high, and has a 1½-inch rim; has a complete set of cultivating tools—plow, narrow and wide cultivator teeth, three-prong tooth, and scuffle hoe for weed cutting. Handles have plow handle grips. A well-made, substantial tool at an attractive price.

Planet Jr. Edger No. 2

The Planet Jr. Grass Edger assists wonderfully in producing an attractive walk. Price \$2.95 (mailing weight 4 lbs.). Postage extra.

We carry in stock a full line of attachments and steels for Planet Jr. tractors, wheel hoes and horse-drawn implements.

Since 1871 Planet Jr.'s specialty has been vegetable growing tools. There are two outstanding reasons for buying Planet Jr. implements. First—they do their work in the most efficient way. Second—they keep on working long after cheaper and less efficient equipment is worn out and discarded.

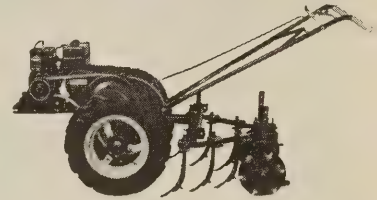

The range of usefulness for small tractors can hardly be defined. Nor does the size of the operation determine their value, because within limits of power and weight they do almost everything. Equipment is as important as the tractor. Having been in the business of making seeding, cultivating, and fertilizing tools over 75 years, Planet Jr. is recognized as the leader.

The constant improvements and additions to the line have caused more and more users to appreciate the advantages of purchasing equipment that has been developed with such careful attention to details of construction as has been the case in Planet Jr. garden tractors. The Planet Jr. tractors now offered are the 5-horsepower HW model, the 2½-horsepower B-8 model and the 2-horsepower model BP-1. Rubber tires are standard on all models. The best guarantee for a product is the reputation of its maker. Remember that time and labor-saving features and the reliability of Planet Jr. today are the result of long years of experience.

COMPLETE TRACTOR CATALOG AND PRICE-LIST SENT UPON REQUEST.

Planet Jr. Garden Tractors and Attachments

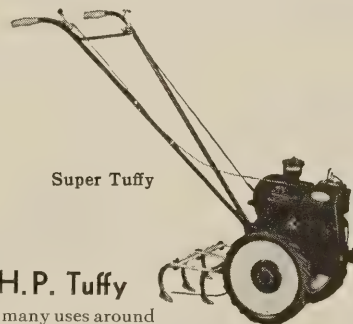

No. 12 Planet Jr. Double Wheel Hoe

Price \$22.50

Planet Jr. Double Wheel Hoes are almost universally used by professional vegetable growers. They will straddle the crop both sides of the row at once and until the plants are 20 inches high. The No. 12 includes all the equipment usually required for gardening: a pair of hoes for shallow cultivating and weeding, 4 steel cultivator teeth for general cultivation, and a pair of plows for hilling, furrowing, etc. A long bolt and ferrule are furnished for changing to a single wheel hoe for later cultivation.

Super Tuffy

SUPER TUFFY

1½ H.P. with ground grip tires. Uses same equipment as 1 H.P. Tuffy. \$141.50.

1 H.P. Tuffy

Has many uses around the small home. Easy to handle; economical to operate; ample power. Takes all attachments which are used on the famous Planet Jr. wheel hoes, also a lawn mower hitch, seeder, fertilizer distributor, tractor cart and snow pusher.

Applications must be preserved at the office of issue for three years from date of issue.

LEDDEN'S LAWN GRASS MIXTURES

One pound sows 250 square feet

Evergreen Lawn Grass. For this year we are using a mixture formerly called New Jersey Formula No. 4. It was introduced under this number several years ago by the Agricultural Experiment Station. The mixture contains good perennial grasses and is meant for light or sandy soil. Analysis: Redtop 20%, Chewing's Fescue 35%, Kentucky Blue Grass 10%, Colonial Bent Grass 15%, Perennial Rye Grass 15%, White Dutch Clover 5%. Lb. \$1.10; 5 lbs. \$5.25; 10 lbs. \$10.00; 20 lbs. \$19.00.

Ledden's Sunny Lawn Grass Mixture. Specially blended for sunny areas. This mixture meets the basic requirements of the sunny lawn grass seed recommendations of the New Jersey Agricultural Experiment Station. Analysis: Kentucky Blue Grass 20%, Perennial Rye Grass 15%, Creeping Red Fescue 15%, Redtop 10%, Colonial Bent Grass 10%, Illahee Fescue 25% and White Dutch Clover 5%. Lb. \$1.15; 5 lbs. \$5.50; 10 lbs. \$10.50; 20 lbs. \$20.00.

Ledden's Formula No. 1 (with Clover). Mixed according to the specifications of the New Jersey Agricultural Experiment Station. A very fine lawn grass mixture using only the best grasses and White Dutch Clover. Analysis: Kentucky Blue Grass 55%, Redtop 15%, Colonial Bent Grass 10%, Perennial Rye Grass 15%, White Dutch Clover 5%. Lb. \$1.35; 5 lbs. \$6.50; 10 lbs. \$12.75; 20 lbs. \$25.00.

Shady Lawn Grass Mixture. A specially prepared mixture for under shade trees or in shady corners. It meets the basic requirements of the shady lawn grass seed recommendations of the New Jersey Agricultural Experiment Station of Rutgers University. Analysis: Poa trivialis 35%, Creeping Red Fescue 30%, Perennial Rye Grass 15%, Redtop 10%, Colonial Bent Grass 10%. Lb. \$1.10; 5 lbs. \$5.25; 10 lbs. \$10.00; 20 lbs. \$19.00.

Vacant Lot Lawn Grass. Our own mixture, composed entirely of perennial grasses with wider blades. Often Perennial Rye Grass and Timothy will stand where other grasses fail. Analysis: Perennial Rye Grass 50%, Redtop 30%, Timothy 20%. Lb. 55 cts.; 5 lbs. \$2.60; 10 lbs. \$4.75; 20 lbs. \$9.00.

Ledden's Lawn Mixture for Dry, Infertile Soils. This mixture meets the basic requirements of the dry, infertile soils lawn seed recommendations of the New Jersey Agricultural Experiment Station. Analysis: Creeping Red Fescue 35%, Common Rye Grass 15%, Redtop 5%, White Dutch Clover 5%, Meadow Fescue 15%, Chewing's Fescue 25%. Lb. 95 cts.; 5 lbs. \$4.60; 10 lbs. \$9.00; 20 lbs. \$17.00.

We use the purest seed obtainable and of the highest germination; however, because each variety of grass seed has a very small content of inert matter, mostly in the form of seed hulls, there will be a slight variation of content from the above analyses. The analysis given on the grass seed bag will, therefore, read slightly different from the analysis stated above. However, the basic mixtures as described above will be the same.

ANNUAL FLOWERING PLANTS

We grow and offer the following list of popular varieties of annual flowering plants in strong seedlings ready May 10 until July 1.

All are 2 cts. per plant, at our place. We are not booking mail orders of flower plants by parcel post or express because they do not carry well.

AGERATUM.

ALYSSUM, Carpet of Snow.

ASTER, Giant Crego, Wilt-resistant.

Red, White, Blue and Rose.
